

do something good.

Your used electronics don't belong in a landfill. They belong in eCOVERY.

eCOVERY is proud to announce the Montgomery Clean City Commission (MCCC) has become its newest eCO-Partner. The MCCC has selected the Montgomery Association for Retarded Citizens (MARC) to be the eCOVERY Collection Operation site for used electronic scrap drop off. All we need are your discarded electronics, which eCOVERY will securely convert to raw material to be repurposed.

Montgomery residents and any business can drop off their e-scrap at our local eCOVERY Collection Operation site. Your participation keeps tons of potentially hazardous e-scrap out of landfills while providing the opportunity to make a donation to MARC. Do something good for everybody, and take part in eCOVERY FUELING REINVENTION.

when Every Thursday, 8 a.m. – 2 p.m., beginning June 7th

where McInnis Recycling Center,
4341 Norman Bridge Road, Montgomery

what to drop off Desktops, laptops, CPUs and towers, TVs, printers, copiers, fax machines, scanners, stereos, keyboards, mice, VCRs, DVD players, phones, cell phones, cameras, camcorders, modems, game consoles, radios, servers, microwaves, medical electronics, TV dish boxes, pagers, PDAs and much more

Larger load pickups call 251-589-7210.
